Verify Card

Rename Card

Remove Card

Enter your new library card number, then select Sign In

Your PIN should be the last four digits of your phone number (or whatever you had set it to previously)!

‹ Back

Enter your library account details. (If you need help, get in touch.)

29069000

PIN

Don't know your PIN? Here's some help.

Sign In

Go back into Manage Cards. Select your old card. Click on the three dots and select Remove Card to delete the old card.

That's it! Your new card is ready to go!

Libby Good News:
- If you have something currently checked out on the old card, you can continue reading it until the return date as long as you haven't deleted the old card.
- Any tags (lists) you have saved will remain unaffected.

Libby Bad News:
- Once you switch to the new card number, you will no longer be able to check out the holds on the old card. You will have to place a new hold with the new card.
- You WILL need to re-add any partner libraries under the new card and delete the old one (for each partner library).
- Anything you currently have checked out on the old card will be removed when the old card is deleted.

Changing Card Number at Partner Libraries

Click on the Library name at the top to bring up a list of your registered partner libraries. Select the Partner Library you want to change.

Follow the same steps as changing your Download Destination card and deleting the old one using the three dots in the bottom right corner.
