6. Director's Report: Jenny Marr

Physical and digital circulation increased for the month of July. If e-book circulation stays high it could have budget implications in the future. The earnings for the Friend's bookstore are up as well. The library's TikTok now has over 5,000 followers. The print mailer will be arriving to residents in September --this is the first year we'll be doing four per year. The Summer Reading finale is Saturday in the library's courtyard. The library is still seeking approval from the City of Ferndale for the courtyard improvements.

7. Library Advocacy – informational only

Director Marr is the chair of the Michigan Library Association's Advocacy Group. The state of Michigan offers capital improvement grants for libraries – Marr will look into whether or not these would be an option for the courtyard project. Informational materials were provided to the board on how to better advocate for libraries. MLA has asked the legislature to included public libraries in a proposed bill that would ban firearms in public spaces. Marr provided information on the upcoming legislative sessions and the upcoming primaries in February

With the recent staff promotions, the current office space needs to be reconfigured. Director Marr asks for an initial budget not to exceed \$15,000.

FADL Board of Directors Request for Board Action

From: Jenny Marr

Subject: Proposal from GES for Youth Services Mechanical Equipment

Summary:

We have had difficulty regulating the temperature in the back Youth Services Office, which had originally been intended as a storytime or program room. Installing an independent unit for the office will be the most direct and cost-effective way to regulate the temperature rather than having to redesign and replace the ductwork for that zone of the building.

This is a Trane/Mitsubishi low temp unit. They will need to drill a hole through the exterior wall (east side of the building, nearer to Troy St by the staff entrance ramp) to connect the interior unit to an outside wall venting unit. They will also need to modify an existing electrical panel to add the power ports for the unit, and run the power to the library's electrical room.

INDOOR UNIT FEATURES

- Slim wall-mounted indoor units provide zone comfort control
- Dual Barrier Coating applied to the heat exchanger, vanes and fan to prevent hydrophilic and hydrophobic dirt build-up
- Multiple fan speed options: Quiet, Low, Medium, High, Super-high, Auto
- 3D i-see Sensor® enables advance features:
- o Indirect or Direct Airflow for personalized comfort
- o Absence Detection for energy-saving mode
- Double Vane features:
- o Separates airflow to deliver air across a large area
- o Simultaneously deliver to air separate sections of a room
- o Generates more comfortable natural airflow pattern
- Multiple control options available:
- o Back-lit screen handheld remote controller (provided with unit)
- o kumo cloud® smart device app for remote access
- o Third-party interface options
- o Wired or wireless controllers
- Triple-action Filtration: Nano Platinum Filter, Deodorizing Filter, & Electrostatic Anti-Allergy Enzyme Filter
- Hot-Start Technology: no cold air rush at equipment startup or when restarting after Defrost Cycle
- Quiet operation

OUTDOOR UNIT FEATURES

- INVERTER-driven compressor and LEV provide high efficiency and comfort while using only the energy needed to maintain maximum performance
- Hyper-heating plus offers 100% heating capacity at -5° and 70% to 81% heating capacity at -13° F

- Blue Fin anti-corrosion treatment applied to the outdoor unit heat exchanger for increased coil protection and longer life
- Built-in base pan heater

Budgetary Context:

101-271-977.000 - Capital Outlay

Total: \$21,445.00

Recommended Action:

A Motion by _____ and seconded by _____ to approve the quote from GES for installation of the New Mini Split System in the Youth Services corner office in the amount of \$21,445.
